

## Operating rules of off-road scooter rental

### For safety reasons, the following rules must be observed:

- 1) When driving from the LD Medvědíň station, the client must drive on the right side of the path. On the section off the visible road, the client may only descend on the route defined by the operator.
- 2) You can only ride an off-road scooter with protective equipment, and a helmet IS MANDATORY.
- 3) The client is obliged to follow the instructions of the operating staff.
- 4) It is necessary to pay attention to and respect the operator's markings while driving.
- 5) It is important to adapt the driving speed to the characteristics of the road surface and your own abilities.
- 6) People under the age of 15 may only ride an off road-scooter accompanied by a responsible person.
- 7) Off-road scooters can only be ridden by one person, and multiple people riding the scooter is strictly forbidden.
- 8) It is necessary to always to brake with both brakes at the same time (left and right brake)!
- 9) If all off-road scooters are equipped with effective brakes, you should bear in mind that at higher speeds the off-road scooter has a certain braking distance, and it is therefore important to brake with sufficient distance from a turn or obstacle and maintain a "safe position" when braking.
- 10) After the ride, the client is obliged to hand over the off-road scooter with all the protective equipment to the staff at the bottom station of the DS Medvědíň chairlift. The client is responsible for the borrowed equipment, and in case of damage, theft or loss, he is obliged to pay for the damage.
- 11) The lessor will not lend an off-road scooter to persons obviously under the influence of alcohol or other addictive substances for safety reasons.
- 12) The lessor is obliged to provide all protective equipment and, if necessary, can close the store at any time.
- 13) Riding an off-road scooter is at your own risk, which the client will confirm with his signature.
- 14) It is necessary to pay attention to the road's surrounding environment while driving.
- 15) It is necessary to pay attention to the forest mechanisms and respect the instructions of KRNAP employees.
- 16) In case of exceptional situations and a forerider, the client is obliged to respect the instructions of the forerider.
- 17) Opening hours of the off-road scooter rental depends on the opening hours of the chair lift. Riding may not be permitted outside opening hours.
- 18) The operator has the right to close the rental shop or not rent an off-road scooter if he recognizes that the track is not suitable for safe driving, or if natural conditions do not allow it. In such a case, the client has the right to use the purchased activity on another day, or to receive a refund (in the case of a funticket) for the unused activity.
